After enduring a grueling and often infuriating few hours engaged in a heated debate with my beloved jackrabbit companion, Harvey, I found myself grappling with his insistence that he is merely a figment of my imagination, a manifestation of my mind's chaotic misfires.

He expressed deep concern that this delusion has escalated to a critical point, exacerbated by my

unfortunate relapse into what specialists describe as my troubling addiction to freebasing Red Curry Pancake Paste.
The intensity of our discussion left me both mentally drained and perplexed, as I struggled to reconcile his claims with my own reality, questioning the very nature of existence and the boundaries of my own consciousness.
Even a notorious hooligan

jackrabbit is entitled to the belief that he is merely a figment of imagination; however, we still cling to the semblance of "freedom," a concept famously championed by Commissar Harris, who passionately proclaimed it from her "people's stroller" as a child. This civil rights activist babe, alongside Brother Little Joey Buyhim, stood resolutely on the Birmingham Bridge, confronting a

hostile mob of aggressive white police armed with water cannons, ferocious dogs, and Tiki torches. Their bravery in the face of such adversity serves as a powerful reminder of the ongoing struggle for justice and equality, reinforcing the notion that the fight for true freedom is far from over.
The country found motivation in her defiant stance, her fist raised high as she passionately

proclaimed, "Fight, Fight, Fight!"
This powerful moment resonated deeply, and Little Joey reflects that the fervent cries of this young activist played a pivotal role in shaping his aspirations, ultimately propelling him toward the presidency in the years that followed.
Last Friday night, my jackrabbit friend found himself in a rather intriguing situation reminiscent of his own recent escapade, which could easily

be likened to a personal version of the infamous Commissar Harris incident.
This all unfolded at Juan's Homemade West Texas Taco Burgers, conveniently located just off Grand Avenue, near the bustling Six-Points area and the historic State Fair Grounds. The atmosphere was vibrant, and the setting provided the perfect backdrop for an unexpected adventure that would surely become

a memorable tale in our circle. Unfortunately for my jackrabbit companion, the country has failed to rally behind him, and law enforcement is currently on the hunt for him and his fellow jackrabbits following a troubling series of incidents that the authorities have labeled a significant insurrection. This group, armed with axes and at least one rusty chainsaw, launched an attack on rental cabins occupied by

what they described as illegal white immigrants, all in a misguided attempt to carry out a so-called citizen's arrest on a large gathering of individuals they alleged were undocumented workers in the service industry.

In light of these chaotic developments, I could, well, see myself wishing for the solace of an imaginary existence as well. "Hey, Harvey, is there a reward for you?"
